

LOGICWORKS SAAS TRANSFORMATION

TRANSFORMATION PROCESS

Our team of engineers will help lower your customer acquisition costs and accelerate time to revenue

TWO USES FOR SAAS TRANSFORMATION

- 1 Migrating your SaaS application on AWS
- 2 Modernizing your current SaaS application on AWS

MEASURABLE BUSINESS OUTCOMES

SaaS architects review current infrastructure

MODERNIZATION

Deploy CI/CD AWS tools, databases and containers for AWS infrastructure

ACCELERATE REVENUE

Drive faster time to customer revenue with automated customer deployments

SECURITY & COMPLIANCE

Meet customer regulatory compliance and security

COST OPTIMIZATION

Deliver recommendations on optimizing AWS costs
